Exceptional value for money

BOOST YOUR RACE SYSTEM WITH BENZING G2/G2+

After the large success of the EXPRESS clocking system, we did totally overhaul its design and created the next generation clock BENZING Express G2/G2+. It is the ideal solution for all smaller pigeon lofts or newcomers in the pigeon sport, as it comes with all the important features in the highest technological version, but remains at the same time focused on the essentials, so it can score in the market with the best price.

Full graphic display of all the information

High clocking speed (20 pigeons per second)

Memory for 250 pigeons and 8 simultaneous races

Cloud Clocking

Easy and ergonomic handling, including a user friendly graphic interface

Driven by a powerful CPU

Live transmission with BENZING Live SMART HUB

Compatible with existing G2 antennas (up to 5 pads)
