

BENZING Express G2

The next generation Express clock - BENZING Express G2

After the large success of the EXPRESS clocking system, we did totally overhaul its design and created the next generation clock BENZING Express G2. It is the ideal solution for all smaller pigeon lofts or newcomers in the pigeon sport, as it comes with all the important features in the highest technological version, but remains at the same time focussed on the essentials, so it can score in the market with the best price.

- Exceptional value for money
- Memory for 250 pigeons and 8 simultaneous races
- Supports up to 100m (300 feet) of cable between the antennas
- High clocking speed (20 pigeons per second)
- Compatible with existing EXPRESS antennas (up to 8 pads)
- Full graphic display of all the information
- Driven by a powerful CPU
- Easy and ergonomic handling, including a user friendly graphic interface
- Portable unit for table or wall mounting
- Emergency power supply for up to 5 hours (with BENZING Express G2 DOC)
- Continuous Clocking with the BENZING INN

BENZING G2 Antennas - a new antenna generation

After a decade of reliable use with our EFA antenna of which more than 100,000 units were sold, time has come to make room for a new generation antenna. The BENZING G2 Antenna has all the features of the EFA antenna coupled with state-of-the-art technology and this is at a highly attractive price - it's just right for those new to the pigeon sport.

1 field G2 antenna
15 x 19 cm
5.9 x 7.5"

4 field G2 antenna
56 x 26 cm
22 x 10.2"

- Based on the state-of-the-art PLB technology
- High speed clocking and wide reading range
- Flat (2.7 cm/1") and splash water resistant
- Available in two sizes
- Available with 1 or 4 reading fields (sensor coils) on one G2 antenna
- 1 field G2 antennas can be arranged directly next to each other
- Status display LED for function tests
- Up to 50m connecting cable
- Works with the BENZING Express G2 and BENZING M1

BENZING Express G2 System

Up to 5 new 4 field or 1 field G2 Antennas can be directly connected to a BENZING Express G2 clock. An easy and cost saving upgrade from the former EXPRESS system is provided. The single-pad EFA antennas can be still used together with the BENZING Antenna Controller.

BENZING Express G2 Doc Guaranteed recording of the pigeons

The BENZING Express G2 DOC was designed especially as an emergency power supply for our BENZING Express G2 clocking system. In the event of a power outage or fluctuations in the power supply, the DOC has sufficient power for up to 5 hours. In addition the BENZING Express G2 DOC has a USB connector to transfer racing data to the PC with the Printer Manager Software and update the clock software.

- Backup power protection of up to 5 hours
- Integrated rechargeable battery
- Plug & Play connection with USB
- Elegant and small housing
