

**HIGH SPEED READING
CAPABILITY**

OPTIMIZED FOR OLR

**SIDE BY SIDE
WITHOUT SNN loftPOINT**

BENZING SPEED²

SUPER FAST, HIGHLY SECURE AND ACCURATE

BENZING SPEED² - we've got you covered

The new BENZING SPEED² antenna offers a level of accuracy and safety that we don't believe you'll find in any other loft antenna.

Its special design of overlapping antenna fields guarantees the highest level of clocking reliability over the entire surface of the antenna. The BENZING SPEED² also offers a new type of range testing for the chip rings, using LED signals and individual functional tests for each antenna field.

**High-speed reading
capability - reading over
the entire surface with
no dead zones**

**Unbeatable safety
and speed**

**Water resistant
plugs**

**Double security -
Pigeons are timed twice**

**SPEED² can be placed
side by side without
SNN loftPOINT**

**Optimised reading
distance for the new
Pro² chip rings**

**Integrated chip ring
range test with LED**

**Green design -
power consumption
is reduced by 50%**

**Up to 120 SPEED²
antennas in OLR mode**
