BOOST YOUR RACE SYSTEM WITH BENZING G2/G2+

After the large success of the EXPRESS clocking system, we did totally overhaul its design and created the next generation clock BENZING Express G2/G2+. It is the ideal solution for all smaller pigeon lofts or newcomers in the pigeon sport, as it comes with all the important features in the highest technological version, but remains at the same time focused on the essentials, so it can score in the market with the best price.

Full graphic display
of all the information

High clocking speed
(20 pigeons
per second)

Memory for 250
pigeons and
8 simultaneous races

Cloud
Clocking

Easy and ergonomic
handling, including a
user friendly graphic
interface

Driven by a
powerful CPU

Live transmission
with BENZING Live
SMART HUB

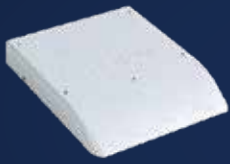

Compatible with
existing
G2 antennas
(up to 5 pads)

ANTENNAS

AT A GLANCE

G2 ANTENNAS

1 field G2 Antenna
15 x 19 cm
5.9 x 7.5"

2 field G2 Antenna
28cm x 26 cm
11 x 10.2"

4 field G2 Antenna
56 x 26 cm
22 x 10.2"

- Based on the state-of-the-art PLB technology
- High speed clocking and wide reading range
- Flat (2.7 cm/1") and water resistant
- Available with 1 or 4 reading fields (sensor coils) on one G2 antenna
- 1 field G2 antennas can be arrange directly next to each other
- Status display LED for function tests

BENZING Express G2+ System

Up to five new 4 field G2 Antennas can be directly connected to a BENZING Express G2 clock. An easy and cost saving upgrade from the former EXPRESS system is provided. The single-pad EFA antennas can be still used together with the BENZING Antenna Controller.
